Overview of the Regulatory Framework

The following short video, presented by Julie Wells, Vice-Principal Policy & Projects, provides an overview of the University of Melbourne Regulatory Framework, including:

- The University of Melbourne Act
- University Statute and University Regulations
- Delegations Framework
- University Policy and the Policy Framework
- University Process and the Process Management Framework.

Facilities and IT Policies

**Facilities and IT** is one of the nine categories of University Policy. Currently, the Facilities and IT suite of policies consists of the following policies:

- Information Security Policy (MPF1270)
- Property Policy (MPF1115)
- Provision and Acceptable Use of IT Policy (MPF1314)
- Major Projects Policy (MPF1114)
Key messages from the Policy Stewards for the Facilities and IT category are:

- The policies covered have been consolidated and simplified with plain language used whenever possible
- The policies direct that IT and Property is used reasonable and responsibility in a manner consistent with the mission of the University
- The policies allow for rules to be created to support these policies, incorporating content formerly found in Chapter of the Regulations.

Policy Breakdown

**Information Security Policy (MPF1270)**
*Policy Steward: Byron Collins*

The objective of this policy is to ensure the confidentiality, integrity, availability and accountability of the University’s information assets.

**Property Policy (MPF1115)**
*Policy Steward: Alex Lawlor*

The objectives of this policy are to outline the University’s commitment to:
- providing, maintaining and managing facilities for the benefit of the University;
- ensuring the security and safety of all people attending all campuses as well as the security of University facilities; and
- providing sufficient access to facilities to help members of the University community to fulfil their needs and obligations.

**Provision and Acceptable Use of Information Technology Policy (MPF1314)**
*Policy Steward: Byron Collins*

The objectives of this policy are to:
- outline the principles that apply to the management and use of computing and network facilities across the University;
- support efficient University processes and enhance staff and student experience with IT tools;
- define the expectations of users of University information technology systems and restrictions on use; and
- provide authority for the University to investigate and act upon allegations of misuse.

**Major Projects Policy** – currently under review
